Write & Cite Training Module and Competency Exam (APA)

Write & Cite Course

The Write & Cite course from Peregrine teaches the skills and knowledge needed not only to write, format, and properly cite academic papers, but also to think critically to define a research problem, find credible sources, and craft theses or dissertations worthy of publication. The course includes 8 modules, each with approximately 3-5 learning sections, and is customized to teach APA documentation styles along with instruction regarding proper word choices, tone, paper organization, literature-based research, and techniques to avoid plagiarism.

The Write & Cite course guides you through rules to a standard system for giving credit to others for their contribution to a paper. In addition, these online lessons provide keys to uniformity in style, grammar, punctuation, and format, so that a paper conforms to professional standards and can be accepted for academic submission and potential publication.

What are the overall structure and time constraints of the Write & Cite: Academic Writing Readiness module?

- There are 8 sections that make up the Write & Cite module. Each section will provide lessons on multiple topics with specific learning outcomes. The module will teach APA, MLA, or CMS documentation styles depending on the Write & Cite version that your institution is requiring you to take. The module will also provide instruction regarding word choices, tone, papers organization, literature-based research, and techniques to avoid plagiarism.
- Each module starts with a twenty-question Pre-Test which must be completed prior to starting the instructional material. The Pre-Test is designed to capture your baseline knowledge and does not require any preparation. To start the Pre-Test, simply click “Pre-Test”. You will receive one question at a time and the questions are timed.
- Each section will conclude with a Section Quiz of 5 questions. To advance to the next section, you must answer at least 3 questions correctly.
- After you have completed all 8 sections, you will be able to proceed to the 50-question competency exam or Post-Test. The Post-Test is cumulative and covers all the sections. The Post-Test does offer a retake option, however only the last score is recorded, and your first score will not be retrievable.
